ROMANCE OF RAIN

When rain touches the leaves,
A new shine, life it gives.
With gentle touch and soft kisses,
Rain beautifies the leaves' caresses.

Droplets sparkle like diamonds bright,
On plant leaves, a wondrous sight.
Rain drops leave behind beautiful spots,
A testament to their gentle drops.

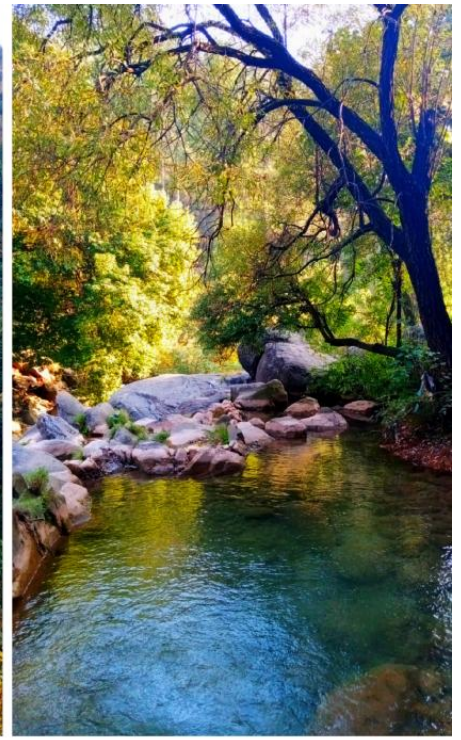

Rain is a blessing from above,
A miracle in every drop of love.
In each droplet, a story's told,
Of nature's beauty, young and old.

It whispers songs on rooftops high,
A lullaby beneath the sky.
Each note it plays, a soft refrain,
That soothes the soul like sweet champagne.

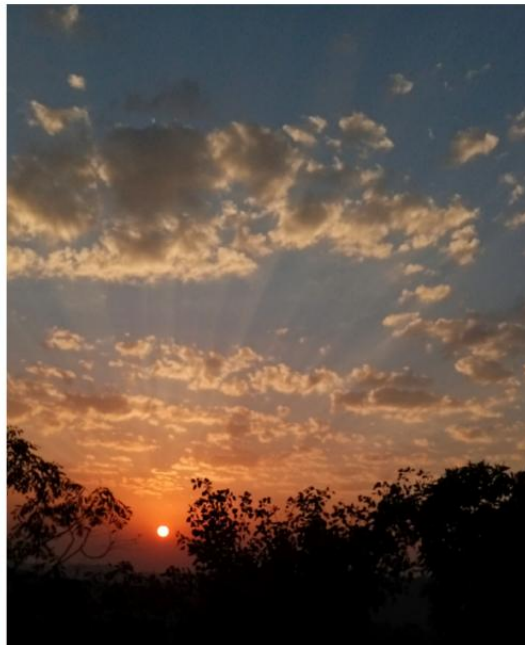

It paints the earth in hues so deep,
Wakes flowers from their gentle sleep
In every drop, a dance begins—
A symphony of nature's hymns.

Nature is a love language, spoken softly to
those who know how to listen.

-Hasina Younas-

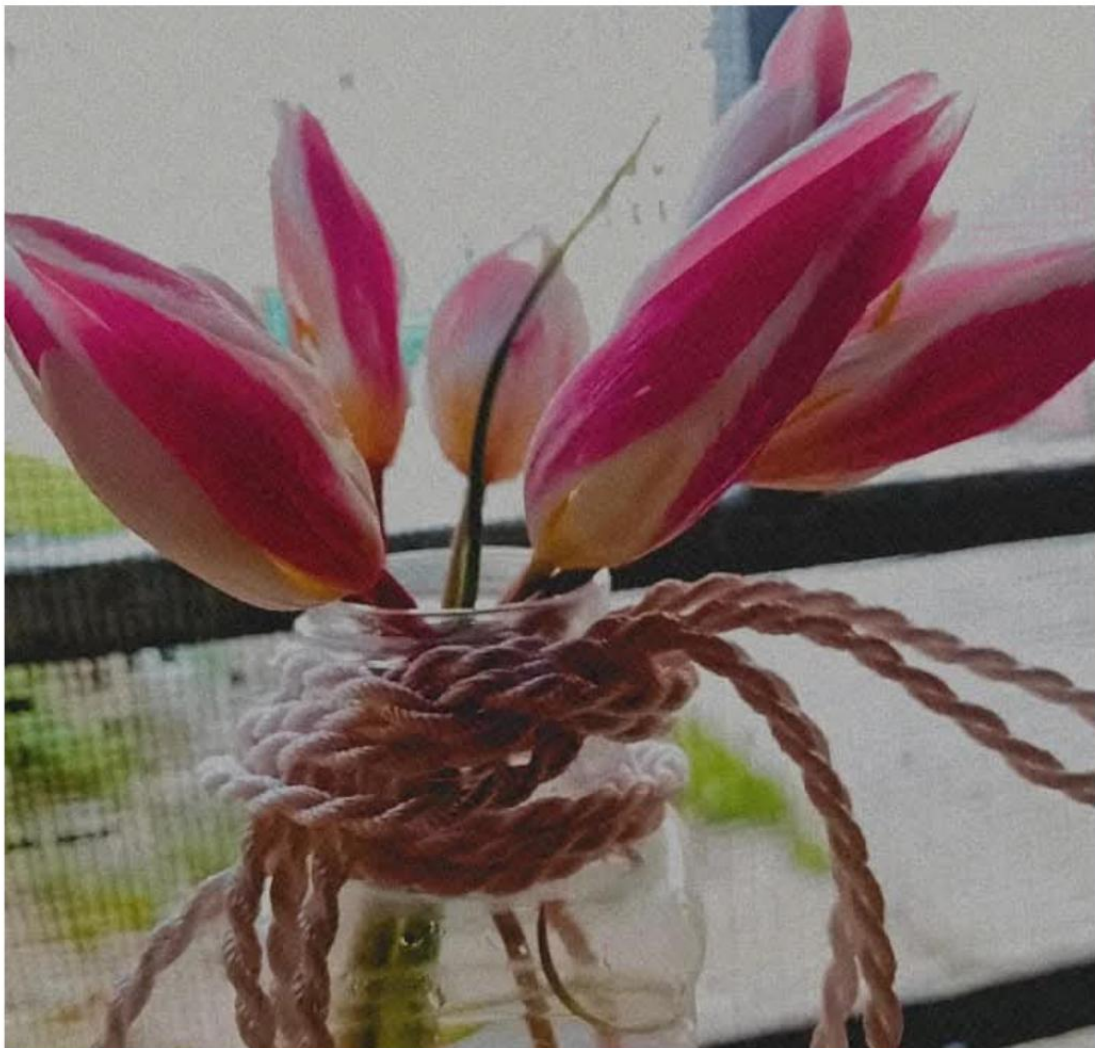

Life's most captivating beauty lies at the beginning of everything.

The most beautiful moments in life are often at the beginning — like when a flower first starts to bloom. That small, quiet moment when the petals slowly open is full of hope and gentle courage. It hasn't fully blossomed yet, but there's something pure and powerful about that beginning. It reminds us how beautiful it is just to start becoming.

Spend time with nature; it provides calmness, peace, love, strength, and a strong connection with Allah SWT.

**Be like flowers: spread
positivity and bring smiles to
other faces.**

*In each droplet, a heart finds rest.
A soothing calm, a love that's blessed.*

AUTUMN

**LEAVES DON'T FALL IN SORROW; THEY
DESCEND LIKE WHISPERS OF CHANGE.**

"In autumn, stay under the trees and feel the music created when leaves fall from them. Breathe in the fragrance of dry leaves and enjoy their gentle rustling."

"There's poetry in every rust-colored leaf — a quiet ode to letting go."

"Autumn is a gentle goodbye — not loud, but full of golden grace."

Snow was falling so much
like stars filling the dark
trees that one could easily
imagine its reason for
being was nothing more
than prettiness.
